

*From the Pastor's Desk*

*April 11, 2010*

We have begun work on improving the heating and air conditioning system in the church. We are able to go ahead with this necessary project because an anonymous donor gave a generous donation which will cover about forty percent of the total cost. The other sixty percent will come from our maintenance account and from our savings account. I am most grateful to the donor who is making this possible. The donor's generosity to our parish shows that even when times are tough, people are willing to make sacrifices for the welfare of our parish.
